Los Angeles County Teachers of the Year Program
2012-2013 Information & Application Instructions

PROGRAM OVERVIEW:
The Los Angeles County Office of Education (LACOE) has proudly served as the sponsoring organization of the Los Angeles County Teachers of the Year Program—an honors competition and awards luncheon that spotlights excellence in public education. The county program, the largest in the state, is part of the California and National Teacher of the Year programs.

Each year, LACOE presents an awards luncheon to recognize all district-level Teachers of the Year. During this luncheon, LACOE announces 16 teachers as the Los Angeles County titleholders, who will automatically qualify for the state competition, with a chance to participate in the nationals. LACOE encourages all Los Angeles County public school districts to participate. Program information, the application and complete instructions are available on the Teachers of the Year website at www.lacoe.edu/toy

ELIGIBILITY REQUIREMENTS:
The Los Angeles County Teachers of the Year Program is open to fully credentialed teachers from pre-kindergarten through grade 12. Each public school district in Los Angeles County may establish its own internal process for selecting or nominating one or more exemplary teachers — their local Teacher(s) of the Year or nominee(s) — to compete in the Los Angeles County Teachers of the Year Program.

Teachers of adults are also eligible if they provide instruction in the same curriculum as those who teach in elementary or secondary grades. Instructors who have some administrative responsibilities are also eligible to apply, but only if teaching is their primary responsibility.

Applicants to the county program may be selected as a California Teacher of the Year. Because of that possibility, all applicants should be prepared to fulfill the responsibilities of representing the teaching profession in a variety of settings and assisting their teaching colleagues in a variety of ways. Teachers selected as state winners may be called away from their classroom 30 or more instructional days during their title year.

WRITTEN APPLICATION COMPONENTS:
One of the State Superintendent of Public Instruction’s areas of focus is on closing the achievement gap and meeting the needs of all students, including those who traditionally underperform. This overarching theme sets the tone for the application.

California Teachers of the Year are frequently called upon to deliver brief, inspirational messages and to address questions from the media, the public, and peers. It is important that our teacher representatives be able to provide answers that are succinct, yet thoughtful and inspirational in nature. Even though teachers may represent particular subject areas, teachers should show a broad, global view of educational practice.

The essence of this application is a set of essays in which the applicant describes his or her background experiences, professional development, and personal views about education. All candidates, as representatives of their county, are considered exemplary in the teaching field. However, application reviewers report that the best applications are those that inspire through specific and compelling examples; provide evidence of meeting all students’ needs; and convey a “passion” and commitment above and beyond that of most applications. Reviewers note that a "voice of authenticity” runs throughout the best applications.
