ENGLISH LEARNER MASTER PLAN Workshop

In collaboration with the California Association of Bilingual Education (CABE), the Los Angeles County office of Education is hosting a workshop to support Title III LEAs in revising their EL Master Plan. This collaborative work session is designed for Title III district and charter school teams to work and plan together to strategize on best practices for developing a comprehensive EL Master Plan.

Participants will learn about helpful reference documents to inform the contents of their EL Master Plan including Federal Program Monitoring (FPM) Instruments, recent state initiatives and requirements related to English learner programs and services, such as the EL Roadmap, CA. Ed.G.E. Initiative, and Multi-Tiered System of Support (MTSS). LEAs will also reflect on their local policy and practices for addressing the needs of all English learner students, particularly Long-Term English Learners (LTELs) and English learners with IEPs.

Who Should Attend
District leaders who are responsible for English Learner Programs, the Federal Program Monitoring (FPM) process, and are knowledgeable about curriculum, assessments and language instructional programs.

PLEASE JOIN US

WEDNESDAY
April 24, 2019
