LA COUNTY ARTS ED PROFILE:  
How Does Your School Compare?

WHAT IS IT?
The **Arts Ed Profile** is an online tool that presents data on arts education provided in LA County schools.

The **LA County Arts Ed Collective** created this tool by combining data from the **California Department of Education** with responses to the **Arts Ed Profile Survey**.

Many schools initially submitted information in 2017. It is now time to paint a more complete picture.

WHY IS IT IMPORTANT?

- Help parents, community partners and advocates target resources to schools that most need them.
- Allows local decision-makers to build upon current strengths and address gaps in arts education.
- Raises public awareness regarding the amount of arts education provided in LA County schools.

WHO SHOULD FILL IT OUT?

- School principals (or their designees)

*But I'm not a principal or designee. I still want to contribute.*

*If you:*

- Represent an arts organization
- Are a parent or guardian

*Please contact your principal with this flyer. Only principals can initiate and approve participation.*

*Upon receipt of new data from a school, the Arts Ed Collective verifies all information with the principal prior to publishing.*

Can all schools submit?

Of course! Whether this is your first time, or you’ve submitted data in the past, your school can participate.

Submit your data by **December 7, 2018** to be included in the February 2019 update.
HOW DO I SUBMIT DATA?

If you are a principal, or are completing the survey on behalf of a principal:

1. Find out what data your school has already shared:
   - Go to: http://bit.ly/artsedprofile
   - Select “Online Tool”
   - Look up your district and school
   - Review existing data. Is there any information that is out-of-date or missing?

2. Preview the survey with your school community.
   - Go to: http://bit.ly/artsedprofile
   - Scroll down to select “How to Update My School’s Data”
   - Download and share the survey questions to collect accurate responses prior to online submission.

3. Talk to your California Basic Educational Data System (CBEDS) coordinator to ensure your data regarding courses, instruction and full-time equivalent (FTE) arts teachers are correct.
   - Reminder: School districts are required to submit CBEDS data each October to the California Department of Education.

   - December 7, 2018 is the deadline to be included in the February 2019 update.

NOTE: The survey will take approximately 10-20 minutes to complete.

WHEN IS THE DEADLINE?

- December 7, 2018

STILL HAVE QUESTIONS?

- The Arts Ed Collective is available to assist district and school staff in completing this survey.
- Please contact your Arts Ed Collective district liaison or Matt Agustin (magustin@arts.lacounty.gov) for more information
