In California, Multi-tiered Systems of Support (MTSS) is an integrated, comprehensive framework that focuses on Common Core State Standards, core instruction, differentiated learning, student-centered learning, individualized student needs, and the alignment of systems necessary for all students’ academic, behavioral, and social success.

Participants will learn more about the framework for Multi-Tiered Systems of Support and how they are structured to connect to school transformation and to meet the needs of ALL students. They will deepen their understanding of MTSS as a strengths based model and will work to develop a Theory of Action that can be used to communicate with stakeholders.
