What is LACOE?

The Los Angeles County Office of Education (LACOE) is the nation's largest regional educational agency. Los Angeles County, the most populous and diverse county in the nation, has more than 9.9 million residents, including about 1.6 million students in 80 school districts.

Under the leadership of the Los Angeles County Superintendent of Schools and the County Board of Education, LACOE supports the public school districts and numerous other agencies in ensuring educational excellence for the region's preschool and school-age children. Our goal is to help the county's public school students come to school healthy and ready to achieve the best possible education.

What is the LACOE Health Outreach Program?

This is a school-based health insurance outreach and enrollment program developed by the LACOE Health Outreach Program (HOP) Partnership. The Partnership consists of state Certified Enrollment Entities, Certified Enrollment Counselors and Certified Educators.

Who are the LACOE HOP Partners?

They are the LACOE-approved, Los Angeles area, state Certified Enrollment Entities, Certified Enrollment Counselors, Certified Educators and Los Angeles County Department of Public Health (DPH) contractors who have wide experience working in schools and have shown understanding and good communication with many cultures in the Los Angeles area. A directory of these agencies for your area is listed in this brochure.

Program Goal

To increase health care access for eligible students 0-18 years and families in Los Angeles County through Medi-Cal and Covered California as well as other **free** or **low-cost** health programs.

Program Activities

The program:

- Offers information and training for parents, teachers and other program staff about Medi-Cal, Covered California, Child Health and Prevention Disability, Medi-Cal Access Program and My Health LA as well as enrollment into these and other ability-to-pay county health programs.
- Provides county educational programs with education, outreach services and referrals to LACOE Partnership agencies for enrollment assistance. Once families are enrolled, we help with maintaining eligibility and coverage, knowing how to use health benefits and what rights and responsibilities come with these benefits.
- Presents current information on the LACOE Health Outreach Program via the LACOE Health Outreach Program website.

Other HOP Resources

The LACOE Health Outreach Program can provide your educational program with informative presentations to your school's parents and staff. The HOP can also provide free community outreach and enrollment workshops at your site. In addition, the HOP Partner Agencies can also offer many other needed resources to your school.
