Office of Education**

LOCAL HAZARD MITIGATION PLAN

ABOUT THE PLAN

WHAT IS IT?

Hazard mitigation refers to actions taken to reduce or eliminate long-term risks caused by hazards or disasters, such as flooding, earthquakes, wildfires, extreme heat or drought. It includes sustainable measures that minimize the impact of disasters and enhance resilience. To support this effort, the Los Angeles County Office of Education Local Hazard Mitigation Plan will be developed to address long term strategies to protect the LACOE community and its critical assets.

WHY NOW?

LACOE has chosen to undertake this effort because it believes in proactively safeguarding its employees, faculty, staff, volunteers, students and families.

OUR MISSION

Our mission is to ensure that the most vulnerable among us are at the forefront of our hazard mitigation efforts. We are committed to protecting lives, promoting equity and building resilience by tailoring our strategies to address the unique needs and challenges faced by our vulnerable community members. Together, we are creating a stronger, more inclusive and safer future for all.

HOW CAN YOU HELP?

COMPLETE A SURVEY

Look out for surveys and questionnaires related to hazard mitigation. Your responses will help us understand community needs and preferences.

Scan to fill out
the survey

ATTEND A MEETING

Join us at LACOE public meetings to share your experiences, concerns and ideas about hazard mitigation. Your input will shape the strategies we develop in our plan.

offer to review
the draft

REVIEW THE DRAFT

As we near the completion of this planning process, it will be critical that we hear from the community. You will have the opportunity to read the draft plan and share your thoughts with us.
