Each application section will be rated using the criteria below. Depending on the section, some responses will be scored using a three-point scale with “1” indicating a “limited” response that requires additional information to a “3” indicating a “comprehensive” response that requires no additional information from subgrantees.

The definitions for each performance level is as follows:

3. **Comprehensive:** The applicant provides complete, extensive responses and strong evidence for the required component.
2. **Adequate:** The applicant provides acceptable responses and sufficient evidence for the required component.
1. **Limited:** The applicant provides incomplete responses that lack detail and evidence for the required component.
  - Sections will not be approved if any one item receives a score of 1 (except in Identification and Recruitment).
  - If an application does not meet the minimum scores for an approval, the subgrantee will receive specific feedback for these sections and will have an opportunity to address these areas and re-submit for review.

Other sections or items will be scored as follows:

- **Complete** – The applicant provides a complete response to this field or section.
- **Incomplete** – The applicant must provide additional information as the response was insufficient for the required component.
- **Not Applicable** – This section or field does not apply to this subgrantee’s application.

The Migrant Education Office (MEO) will be using this rubric to score the Migrant Regional and Direct Funded District Applications. A minimum score of 2 is required for each section where a score is required. For sections that require completion of an item, incomplete sections will warrant disapproval of that section.

Use this rubric as a guide for completing your online application and for scoring District Service Agreements.
